

**Scandinavian Fabric Stars**

Choose 4 fabrics that coordinate

Cut (1) 12" x 3 1/4" rectangle from each fabric. You can layer the fabric to cut if you are making several stars. Four fabric strips = One Star

Iron the strips so they are like double-fold bias tape. ( In half, then fold the edges in towards the center.)

Fold the strips almost in half, so one end is about one (1) inch longer than the other.

Start weaving them together, so that each strip is sandwiching the previous one. Pull the ends of the last strip through the loop of the first.

Pull the strips snug. It should now hold together on its own.

Flip it over and weave the long ends together (just like folding down the top of a cardboard box).

Pull snug.

In turn, fold each of the strips into a triangular point.

Fold the point in half, and tuck the long end into the ornament.  
You can use tweezers to help pull it through.

Trim off the raw edges so that they don't show.

Ta-da! Done.

Use embroidery floss to sew on a loop to hang.
